

**Rodrigo Bercocano do Amaral**

Software Engineer Sr Manager

Ensemble Health Partners

September 30<sup>th</sup>, 2024

To Whom It May Concern,

I am writing to enthusiastically recommend Paul Knopf for any role as a Software Engineer Lead or Architect. I have had the distinct pleasure of working closely with Paul at Ensemble Health Partners, where he has served as the Software Engineer Lead on several critical projects.

Paul is, without a doubt, one of the brightest engineers I have ever worked with. His technical expertise is only matched by his strong leadership and mentoring abilities. Paul was the key engineer on many of my projects, playing a vital role in shaping the architectural design and driving crucial decisions. His ability to lead teams and mentor other engineers was instrumental in helping us overcome complex challenges efficiently and with confidence.

Thanks to Paul's contributions, we were able to solve problems quickly and assertively, resulting in successful project outcomes. His technical skills are exceptional, and he consistently demonstrated a deep understanding of software architecture and engineering principles. Moreover, his personal skills, including strong communication and teamwork, make him a pleasure to work with.

I would highly recommend Paul for any engineering leadership or architectural role. He would be an asset to any company, and I am confident that he will excel in any position he chooses to pursue.

Please feel free to contact me if you need any further information.

Sincerely,

Rodrigo Bercocano do Amaral
